ÖNSÖZ

Ülkemizde İş piyasasına ilişkin sağlıklı ve yeterli verilerin bulunmaması, sorunların çözümü için uygun politikalar oluşturulmasında ciddi bir darboğaz olarak varlığını sürdürmektedir.

Türkiye'nin tek istihdam kuruluşu konumundaki İş ve İşçi Bulma Kurumu, bu darboğazın aşılmasında özellikle son yıllarda yoğun bir çaba harcamaktadır. Sunduğumuz bu yayın bu çabanın, somut örneklerinden biridir.

Gelişmiş ülkelerde etkin ve dinamik İstihdam Kurumlarının ülke ekonomilerindeki istihdam seviyesinin en üst düzeyde kullanımı için yaygın ve çok yönlü faaliyetlerde bulundukları bilinmektedir. Bu faaliyetler, ulusal ekonominin üretkenliğini artırmak, işsizliği ve gelir kaybını asgari seviyede tutmak açısından hem ekonomik hem de sosyal faydalar sağlamaktadır.

Kurumumuzda diğer Ülkelerdeki benzer İstihdam Kuruluşları gibi bu hizmetleri daha kapsamlı ve hızlı biçimde sunmak amacı ile büyük bir atılım içindedir. Belirlenmiş hedeflere ulaşmak üzere bir yandan yasal düzenlemeyi sosyal taraflarla hazırlayarak Hükümete sunarken diğer yandan var olan kaynaklarını geliştirerek çok önemli projeleri uygulama aşamasına getirme çabasıdır. Dünya Bankası desteği ile uygulamaya konan "İstihdam ve Eğitim Projesi" bunların en önemlisidir. 1993 yılında başlayan bu Proje ile sorunların çözümü de hedeflenmiştir. Bu güne kadar toplanamayan mesleki istihdam ve ücret bilgileri ilk kez bu projenin yürürlüğe girmesi ile toplanmaya başlanmıştır. Ayrıca veri dağınıklığına engel olmak üzere Proje kapsamında başlatılan İşgücü Piyasa bilgilerini Ulusal düzeyde bir araya toplayan bir veri tabanı oluşturma çalışmaları Devlet İstatistik Enstitüsü bünyesinde sürmektedir. Bunlara ek olarak İstihdam Garantili İşgücü Yetiştirme Kurslarında sağlanan gelişmeler diğer olumlu gelişmelerden çok daha önemli boyutlardadır. İş bekleyenlere vasıf kazandırarak kurs sonrasında hemen işe yerleştirme yöntemi ile düzenlenen bu kurslara katılımın her yıl bir önceki yıla göre daha fazla olduğu ve bu artışın sağlanmasında da Kurum personelinin büyük çabasının bulunduğu görülmüştür. Ayrıca Kurumumuza başvuru sayısındaki artış, Kurumun istihdam Piyasası içindeki ağırlığının giderek arttığını göstermesi bakımından da önem taşımaktadır. Proje kapsamında en kısa sürede Kurumumuz bilgisayar ağıyla donatılarak otomasyona geçecektir.

Kurumumuzun, dinamik bir iş kurumu olarak süratle yeniden yapılanması süreci içerisinde istihdamın geliştirilmesi yanında sağlıklı ve etkin bir işsizlik sigortası uygulamasında ön koşul olduğu görüşündeyiz.

Sizlerin istifadesine sunulan bu kitap, 1996 yılı içerisinde Kurumumuz aracılığı ile iş isteyenlerin, yıl içinde işe yerleştirilenlerin, yıl sonundaki işsizlerin ve Kurumumuz ünitelerine bildirilen açık işlerin, değişik yönlerden görünümelerini ve geçmiş yıllarla ilgili mukayeseli bilgileri içeren tablo ve grafiklerden oluşmaktadır.

İlgili kişi ve kuruluşlara yararlı olacağını umduğumuz bu yayının, gelecek yıllarda sizlerden gelecek öneri ve eleştirilerle daha da yararlı bir kaynak olmasına çalışılacaktır.

Saygılarımla.

PREFACE

In Turkey, having not sufficiently exact and correct data regarding labor market gives rise to bottlenecks in forming policy to deal with its questions. In the last couple of years, Turkish Employment Organization, sole employment institution in Turkey, has been striving to handle the situation.

In developed countries, as it is known, effective and dynamic labor institutions implement wide range activities in the economy to keep up utilization of labor at maximum level. Besides these activities, they provide advantage of increasing productivity in national economy, keeping unemployment and loss of income at minimum level, they also provide different economic and social gains.

Our organization, like others in various countries, launched new strategy to supply services in comprehensive and rapid manner. To reach the main targets set out, submits its new draft legislation prepared in collaboration with social partners to the Government on the one hand, tries to develop project to the stages of applications through utilizing the resources it has developed on the other. The most important of those projects is the "Employment and Training Project" contributed by the World Bank. The project started in 1993 has also aimed at solving those problems. Information on employed persons by occupation and wage information, which could not be gathered up to now, through application of the mentioned project are being finally collected. In addition, within the body of DIE, studies on developing a new database at national level have been going on to prevent different data collections by different bodies. On the other hand, apart from many developments, one feels also necessary to pay attention to the training course with ready placements. The number of people who participates the retraining courses increases in each year. Increasing in this number is mostly due to the struggle of our staff. Besides, increasing in the number of applicants is important, because it shows that organization is gaining gradually more place in the employment market. Within the project, organization by equipping with the computer network will fully initiate the automation soon. Should organization be provided with all means necessary so as to make it fully operational labor agency, it would also better serve the application of unemployment insurance services, besides supplying employment services.

This yearbook, presented to your advantages, contains the tables and graphics, related with the applicants, placements, vacancies and unemployment people in 1996, by comparison with the previous years, in the various ways.

We hope that this yearbook will be useful for the other organization and people who are interested. In the next year, we will struggle to make more useful resource by your offers and criticisms.

With my best regards,

Kemal İrfan AKKUŞ
General Director.
